

Dear LYMEC,

It is an inner joy to present my candidacy for Internal Auditor. LYMEC has been close to my heart as the embodiment of European liberality, open to new ideas & new people. This is why I wish for LYMEC to retain its organisational strength & functionality.

Within Radikal Ungdom, I helped reopen a local chapter, where I served as treasurer. This introduced me to the organisational joys within organisations, the gears behind the façade.

Within Radikal Ungdom's international committee I have continued this role as a devil in the background, who ensures the right proceedings. Now, I wish to have this role within LYMEC, meticulously tinkering with Excel-sheets, yet being openly available for Congress attendants.

The previous Internal Auditors have helped maintain LYMEC's operational level, focusing on the well-being of the Bureau and organisation overall. This transparency, and a future culture of transparency, is one, which I wish to help nurture within LYMEC.

I will be happy to expand upon this in over a coffee, call or meal the upcoming weeks.

Yours sincerely,

Aleks S. Løndal

*RU Candidate for Internal Auditor*
