17th March 2026

To all Member Organisation of LYMEC (European Liberal Youth)

Dear Liberal colleagues,

The Young Green Liberals of Switzerland, are proud to nominate Estelle Jaggi as a candidate for the LYMEC Bureau.

Estelle joined the Young Green Liberals in 2023 and quickly distinguished herself through her hard work and excellence. Just weeks after becoming a member, she was nominated and selected for our international delegation, where she has been an indispensable member ever since.

A graduate of the Young Changemakers Academy Class of 2024, she demonstrated exceptional leadership capabilities while serving as the President of the Young Green Liberals for the Canton of Fribourg, a bilingual territory. During her tenure, this regional branch achieved record levels of activity, political engagement, and operational efficiency, consistently punching well above its weight.

As International Officer, I can personally attest to Estelle's professionalism and work ethic, having previously entrusted her with the role of Head of Delegation with complete confidence in her ability to thrive. Having worked closely with her for over two years, I remain consistently impressed by her quick thinking, creative problem-solving, and exceptional team-building skills. I have absolutely no reservations about recommending her candidacy—my only regret is that her election will make her unavailable for further leadership roles within YGL!

Estelle embodies the forward-thinking, courageous, and pragmatic leadership that the LYMEC Bureau requires. We at YGL are incredibly proud to nominate her for this important office. We are confident that in Estelle, Member Organisations will find the right person, at the right time, for the right job.

Marius Gobet
International Officer
