Application of Attistibai Youth for LYMEC full membership

Dear liberal friends,

With this letter we would like to state our intent to become full members of LYMEC. We hope that information provided below together with our political manifesto and statutes (submitted as separate documents) will be sufficient for you to make a positive decision in our case.

Number of members: 40 (around)

Attistibai Youth requires organization members to be at least 18 years old to join. Youngsters from the age of 16 can join Attistibai Youth as supporters.

More than half of the new Attistibai Youth members are aged under 23, with the oldest new member being 29. The vast majority (85%) is members of the mother-party Latvijas Attistibai; 40% have never previously been involved in any party or youth organization.

Finances: Attistibai Youth is financed through the budget of our mother-party Latvijas Attistibai, as well as through membership fees and donations. Since Attistibai Youth was established in December 2013, the organization does not have any funds available and all implemented activities are financed through the budget of the mother-party.

Relationships with other organizations: Attistibai Youth is the party Latvijas Attistibai youth organization which unites young people – the party members and supporters. Organization has direct connection with party Latvijas Attistibai.

Attistibai Youth does not have an active collaboration with domestic liberal youth organizations because there is no such organization in our country.

On international level, Attistibai Youth has been actively cooperating with liberal youth organizations from Baltic States.

Sincerely,

Līna Kārklīņa

President of Attistibai Youth
