Dear liberal friend,

It is with great pleasure that we inform you about our decision to nominate Marijn de Pagter for the position of Treasurer in the LYMEC Bureau.

I am sure that you all know Marijn as a person with a passion for the international liberal community, on both European and international level. In both organisations, he has a broad range of experience, but first and foremost as Auditor of LYMEC and IFLRY.

During his time as LYMEC Auditor, Marijn has gained solid ideas about the improvement of the financial position of LYMEC. In his promotional video, he discloses his plan to establish an alumni network, something that works out very well within the JOVD as well. It is a good networking opportunity for sympathisers of LYMEC and can even generate income. The JOVD is very willing to share its experiences with her own alumni network, Club '49.

On a national level, we know Marijn as strict on financial and regulatory issues, a quality the JOVD looks for in a treasurer. We are that sure he will leave the financial books accurate, to the point and correct. And we are sure that he will propose real improvements on the field of finance, administration and good governance.

Marijn de Pagter is well known in the international field. We don't have to tell you about his experience, about his capacities or strong relationships with liberals all over the world. We are convinced about his financial capacities and strongly support his candidature for the LYMEC Bureau.

Please don't hesitate to contact us or Marijn for any further information.

Sincerely,
On behalf of the JOVD Board,

Matthijs van de Burgwal
President

Jim van Mourik
Vice President
International officer
