

Nomination of Svenja Hahn for LYMEC Vice President

Berlin, March 2016

Dear liberal friends,

today we inform you about our nomination of Svenja Hahn as a candidate for the position of LYMEC Vice President at the elections taking place on the upcoming congress in Vienna.

Svenja is an active member of Germany's Young Liberals (JuLis) and the Free Democratic Party (FDP) and served two mandates in her student years as Vice President on the federal board of the Liberal Students (LHG).

In June 2014 she was elected to the LYMEC bureau and served as Press Officer. During the last two years she worked hard and pushed the communication and presentation of LYMEC and learned a lot about the organisation itself, the workflow and organizational aspects: A knowledge that is an excellent basis to further develop LYMEC as the Vice President.

We strongly believe that Svenja's experiences as well as her personality will contribute to a strong leadership of LYMEC to give young liberals all over Europe an even stronger voice. Svenja is a European by heart and these people are urgently needed to shape the liberal future in a Europe that finds itself in challenging times.
