

Application of reduction of debt for Norwegian Liberal Students to LYMEC.

In the Period where the debt was created 2014, 2015 the board of NLSF was non functioning due to negligence by the executive board. In 2016 a process to rebuild the organisation was started, and we now have the necessary membership to function properly. However since the organisation has not been functioning the membership fees of Lymec and our other umbrella organisation, have regretfully not been paid. However we have as of 2016 started paying the current membership fees. We also would like to note, that the current leadership of the NLSF were not members during the 2014 and 15 period. As we are a small organisation with a limited budget we do not have the space to pay down all of our debt. We therefore ask that some of the outstanding debt is waived.

For 2017 we have found room to pay a total of 250 Euros. This consists of 175 Euros to the 2017 membership fee, and 75 Euros in downpayment of debt.

We therefore apply for receiving a 150 Euro debt reduction reducing our total debt to 75 Euros, which we will repay in total in our next budget year.
