

BUREAU REPORT

Svenja Hahn
Vice President

October – April 2018

Dear Delegates,

The task of the Vice President is to support the President and the whole team as well as representation towards our partners. The typical duties of a Vice President involve the internal coordination of everyday tasks as well as the long term strategic approach together with the President and the Secretary General. Whenever needed I support other bureau members to deliver their tasks and take over responsibility in organizing events. Despite that I would like to highlight some projects and aspects that have been in the focus of my work in the last half year.

Visual Identity

Together with Communication Officer Edgaras I have worked on creating a new visual identity for LYMEC. We believe a fresh, brushed up and for the first time wholesome visual identity is crucial for a vivid youth organization. For the first time LYMEC was treated as a brand, we worked out the reason to be and what it means for our visual and verbal language. With such a briefing we searched for an agency to bring the look and feel of LYMEC to life. We will present the new logo and identity at the Spring Congress. The whole identity will need to be implemented step by step by the next bureau with every new piece of communication and campaign material.

Communications

Being a PR professional I was very active to support and work with Communication Officer Edgaras and creating campaigns and communication for LYMEC. I am very proud that we have grown in numbers and impact on all our Social Media channels in the last half a year. We have proven to be a professional youth organization that is able to shape their political messages to reach its target groups.

Events

I was responsible to plan and organize the Spring Congress and the ELF event at the fringes of it. We started the organizational phase already in August 2017 and went into details as of January like organizing speakers, evening programme and all the little details in the background. I am confident that we will have a great congress and a seminar that will us all inspire to work for a liberal fightback as a kick off for the LYMEC and national preparations for the 2019 EP elections.

Alumni Network

After an intense planning and analysis phase we were able to legally found the LYMEC alumni network, shortly before the Autumn Congress and officially launched the Network together with IFLRY and their alumni club at the fringes of the ALDE Congress in December in Amsterdam. We have set the basis for a network that shall aim at ideally and financially supporting LYMEC but even more shall be a platform to bring current and former LYMEC actives together and help them grow together.

Networking

One of the main tasks as Vice President is to represent LYMEC as an organization and to network with stakeholders in politics and society to push forward our politics. As representative in the ALDE Council I have been able to expand my network and to lobby

for our positions in the liberal family. One of our biggest success was for sure, securing a spot for LYMEC in the ALDE Manifesto Committee. I am very thankful and proud to be representing LYMEC in the Committee for the 2019 EP elections in order to work for a manifesto that tackles the most relevant challenges for youth today and wants to shape an EU that will work for our and the next generation.

If you have any questions concerning my work during my mandate as LYMEC Vice President please feel free to contact me. I am looking forward to meeting you all in Berlin.

Best regards,
Svenja
