## **Nomination of Ines Holzegger for Bureau Member**

Dear liberal friends,

On behalf of JUNOS – Junge Liberale NEOS, I am most pleased to announce the nomination of Ines Holzegger to run for Bureau Member at the upcoming Spring Congress in Skopje.

Ines, former International Officer and well-deserved member of our organization, has proven her strong commitment to the European liberal family and is dedicated to serving LYMEC as one of its Bureau members. Having broad and diverse experience as well as visionary ideas, we have faith our candidate has the means to be a strong voice to promote liberalism and European values across the continent and beyond. Not only did she gain experience in policy work and in providing structural support as board member at JUNOS. She was an active member on two campaign boards, playing an important part in running a nation-wide youth campaign. I myself had the pleasure of working with her during one of her years on the board and in one election campaign. On top of a fundamental political understanding and incredible determination to push herself and the organization forward, Ines is an absolute joy to work with.

Convinced she will make a valuable addition to the LYMEC Bureau, we encourage you to support Ines's candidacy and make LYMEC strive for new heights. We will of course be happy if you reach out to us and Ines to discuss her plans and ideas before the Congress.

Sincerely,

**Anna Stürgkh**

President of JUNOS
