Nomination Letter for Marten Porte

Dear Liberal Friends,

On behalf of the Jonge Democraten (JD), I am extremely proud and it is my most sincere pleasure to be able to, on behalf of the current board, nominate Marten Porte for the important position of Treasurer for the next LYMEC board. In the time that I have known Marten, he's proven himself to be a highly capable, knowledgeable, and above all motivated individual to deliver results for JD. I know he will continue to give more than a 100% commitment in what will hopefully be exciting new steps for him, but more importantly, for LYMEC.

Since 2018, Marten has attended multiple LYMEC congresses and seminars as the international officer of JD. At the time, Marten was not only JD's representative for international affairs but at the same time the treasurer of the organization. Despite both being considerable portfolios, he skillfully handled the workload and brought financial stability to the organization despite some deep cuts in the funding of JD. As the candidate for Treasurer, Marten understands that healthy finances are the foundations for any organization to live up to its ambitions. To that end, Marten will continue Lena's great work and ensure that any current structural funds can continue to be relied on in the future, that the board knows where the financial room for maneuver is, and that he is a contact point for all financial queries from MOs. He will also be scoping out how to make the further growth of LYMEC a reality, in particular looking at the questions of staffing and office space.

At this exciting junction for LYMEC, brimming with ambition to become a more important player in the European political scene, Marten will be a steady pair of hands to help deliver results for LYMEC, and through this, for MOs as well.

We ask you for your trust in him and encourage you to vote for him to be the next Treasurer of the LYMEC bureau. We are available at all times if you wish to ask any and all questions about his candidacy, either before the congress in Skopje or otherwise when we are all there.

On behalf of the Jonge Democraten,

A handwritten signature in black ink, appearing to read "Abel Hartman". The signature is fluid and cursive, with a large initial "A" and "H".
