

Nomination of Marina Sedlo for LYMEC Bureau Member

Berlin, February 2020

Dear liberal friends,

Today we inform you about the nomination of Marina Sedlo as a candidate for the position of LYMEC Bureau Member at the elections taking place in the upcoming congress in Skopje.

Marina is an active member of Germany's Young Liberals (JuLis) and the Free Democratic Party (FDP) and served two mandates as International Officer on the federal board of the Liberal Students (LHG). After being IMS Delegate for 1 year, she's also currently member of the Steering Committee of the Individual Members' Section of LYMEC.

During her active time as International Officer and IMS Delegate, she put forward many resolutions and worked together with fellow liberal students, reviving the working group „ELSN“(European Liberal Students Network). She was also part of the LYMEC delegation at ALDE Congresses for 3 years and a reliable member of the delegation, always having LYMEC's interests at heart.

We strongly believe that Marina's political experience, her knowledge of LYMEC, as well as her personality will contribute to a successful activity within the LYMEC Bureau.

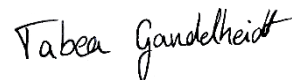

Marina is European by heart and a great candidate to help shape the liberal future in Europe.
